

The Right Solutions For Short Line Railroads

Critical Infrastructure Protection (CIP) is vital to the entire railroad industry, but often it can be too time-consuming and costly to implement for most short line railroad operators.

e-VERIFILE.COM offers a quick and cost-effective solution to meet these challenges with **e-RAILSAFE Short Line (ERS-Short Line)**.

Designed exclusively for **Short Line Railroad systems**, **ERS-Short Line** is based on the successful **e-RAILSAFE** program which currently serves all of the Class 1 Railroads in the US and Canada.

Use **ERS-Short** Line to conduct a number of people management, safety and security tasks all from **one web-based platform**:

Find the Right People

Easily recruit and pre-screen candidates for employment or enroll contractors/vendors into your compliance program all online. Our Talent Management solution enables you to create, collect, and auto evaluate online employee applications and contractor/vendor registration forms.

Make the Right Decisions

Get the information you need to make informed hiring-decisions. Use our On Demand Risk Assessment solutions to access criminal, civil and credit report searches, compliance data, information from government databases and more.

Administer the Right Training

Make sure employees and contractors comply with your policies and regulatory requirements. Our Compliance Awareness solution can help deliver compliance training and testing online.

Apply the Right Control

Determine who gains access to your facilities by creating and managing your own Workplace ID program. Easily create Custom ID badges online for your employees and contractors.

Protect your company from potential lawsuits by joining with hundreds of other railroad interests in subscribing to ERS Short Line Today!
